

Introduce yourself and tell us why you chose this course.

Hello Sir/Mam,

I am Sambit Mohapatra, I belong to Cuttack a small city of Odisha. Basically, I born and raised in Cuttack but then I moved to Bhawanipatna to pursue my Bachelors.

I have completed my Bachelor in Technology with specialization in Computer Science & Engineering from Government College of Engineering Kalahandi. I have done my 12th from JKBK Govt College, Cuttack & 10th from Ravenshaw Collegiate School Cuttack.

I have a keen interest in Python, SQL as well as in Data Analytics & Machine Learning. I have even done certain projects on it.

Currently I am working as Data Analyst Freelancer for Odisha Cricket Association.

And also, there some of my colleagues consider me a good leader with problem solving skills.

In my leisure time, I love to read novels also I love to play outdoor sports mainly Cricket and Kho-kho. Also, I love to explore places.

Why I Choose this Course

From beginning of my career, I excited about a data driven career, I always want to make a career in Analytics or Statistics or Data Science.

I choose this course to brush up my skills and to establish a strong base for my future or career. When I saw EdYoda's Data Science course ad in LinkedIn I really excited about, like this course curriculum is so deep and I believe that who invest time for this course definitely he/she will gain something for future.
